Falcons, We each carry our own burdens in our day-to-day lives, and each of us carries those burdens in different ways. Some are easy to shoulder, some weigh us down. We never know the type of day someone is having, so we need to be aware of how our words and actions can affect those around us. That brings us to our word of the week: sensitivity. Sensitivity is the awareness of the needs and emotions of others. An empathetic person will have a high degree of sensitivity for what others are experiencing. It can also mean the way we are affected by the words or actions of others. Here it is in a sentence: "Even though her friend was beside herself after failing the driving test, her sensitivity gave her the ability to offer the exact words of comfort needed." Check with Mr. Pilarski if you'd like to win prizes based on our word of the week. +
